Subject: Drilling locations? Northrop-Grumman/Navy Bethpage 9/29/14

Hello Brian,

I may have an opportunity to get out to the Bethpage area Monday afternoon to observe the drilling underway related to the Bethpage groundwater investigation.

Can you please send me the street intersections, VPB #s (or monitoring well numbers) and the actual villages associated with the street intersections?

It is a large area and sometimes "mapquest" gives me conflicting locations when I am not sure what village the intersection is in.

I understand Northrop-Grumman is also conducting drilling for OU-3, but do not have plans to stop at their work area.

Carol and I appreciate the courtesy you have continually demonstrated in accommodating our work on this project.

Regards,
Rob Alvey, P.G.
